

# Member Access Pacific Prepaid Card Solutions

## MAP To Your Card Insert

### INSTRUCTIONS

**The MAP-to-your-Card Insert is available to assist members in personalizing an Instant Issue Prepaid Reloadable Visa Card**

The **MAP-to-your-Card Insert** is available in electronic format and can be printed at your location using standard Avery MS Word template #8371. The insert contains printed cardholder instructions for accessing the prepaid consumer website using the generic phone information.

We suggest using Avery pre-perforated stock # 8871 to print the inserts. The insert form should be duplex printed (front and back). One form will provide 10 inserts, each fitting easily into the prepaid card carrier.

Be sure to place the **MAP-to-your-Card Insert** into the prepaid card carrier. The insert contains cardholder instructions for "First-Time" access to the prepaid card website. The website allows the cardholder access to transaction data and profile update capabilities. The prepaid card website address is located on the back of each prepaid card, prepaid card carrier, and **MAP-to-your-Card Insert**.
